EXPLANATION OF RELEVANCE

References AJ to AM were all identified in the International Search Report. All of these references are in English, so no further commentary on their teaching is necessary. The relevance of references AJ, AN-AO, and AQ-AW was adequately addressed in the specification. Reference AP is a German Patent and discusses background information in the field. An English abstract of this reference has been provided, and a translation of the full patent will be produced at the request of the Examiner.

The filing of the present Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be construed as an admission that the information cited in the present Information Disclosure Statement is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b).

The above citation of prior art is not a representation that such art constitutes a complete or exhaustive listing of all pertinent prior art, nor that it necessarily includes the closest or most relevant art. The aforementioned citation comprises a voluntary citation of prior art of which applicant and his attorney are presently aware and is not intended to serve as a substitute for the Examiner's own search.
